I searched through our cemetery book for Mt. Olive Cemetery and could not find that name anywhere. I checked all other cemeteries as well and came up with nothing. I would have thought if he died in 1960's he would surely have a headstone. Also, we have no death records after the year 1910, so unless you can be more specific on the death date there is no way we would be able to look for an obit. Our policy is to do a basic search only and 1960's as a death date would be too broad. It would take awhile to look through all the 60's newspapers, especially since there were 3 different newspapers at that time. I'm sorry we couldn't have been more help, but if you do come up with a more specific death date please let us know and we would be more than happy to look for an obit for you.

Sincerely,
 Tina Murphy
